## Dan Tompkins

### Professional Profile

Dan Tompkins is the Albany Office Regional Vice President of Adjusters International/Basloe, Levin & Cuccaro, Ltd. His leadership brings more than 20 years of situational experience, a diverse background in claims handling and an in-depth understanding of the claims process from policy interpretation to settlement. As the former owner of an independent adjusting company, he gained unique knowledge and an outstanding perspective on the insurance industry.

During his years as an independent adjuster, Tompkins' focus was handling large commercial claims throughout New York State for restaurants, hardware and retail stores, foundries, radio stations/studios, industrial manufacturing companies, churches, temples and schools—*including a substantial water damage claim for a large centralized school district.*

Tompkins has been involved in catastrophe work. Following Hurricane Ike in 2008, he worked with a large energy corporation in the Gulf Coast, providing them with information and support on how to document their claims. In 2011 he assisted more than 50 clients in the southern tier of New York State working claims that resulted from Tropical Storm Lee and Hurricane Irene.

### Personal Commitment

*Tompkins is a thorough adjuster, experienced strategist, skilled listener and compassionate professional dedicated to presenting a comprehensive claim to the insurance company on behalf of his clients. He is uniquely qualified to evaluate coverage and maximizes every endorsement of the client's policy in order to obtain a fair and equitable settlement.*

## Your team of INSURANCE PROFESSIONALS

Every day, we contact or are directly contacted by businesses and homeowners after difficult and disastrous events. We feel strongly that the information we can provide will greatly assist you through this challenging time.

Many policyholders are surprised to learn that the insurance company doesn't automatically pay their insurance claim. In fact, it is the insured's responsibility to document and prove the extent of their loss in order to get compensated for it. When a disaster occurs, the insurance company has adjusters, building engineers, claims managers and supervisors, all representing their interests. Who do you have representing yours?

We work solely for you, the policyholder — never for insurance companies. We know what to do, whom to speak with, and how to fully recover all insurance monies due and get you back in business as quickly as possible.

### That's where we come in.

For decades, our team has been guiding clients through the complicated process of preparing and settling claims. With a staff of over 300 personnel, including licensed adjusters, building estimators, inventory specialists, and accountants, we have the resources and expertise to help you get everything you're owed from the insurance company.

Our firm will review your policy in detail to evaluate all available coverages that can be used to provide financial compensation. Our adjusters will then prepare a complete, detailed assessment of your building, contents, business interruption, and extra expense losses for presentation to your insurer. We will present and support the claim on your behalf at meetings with the insurance company and their experts.

**We look forward to discussing your needs and demonstrating our capabilities to help navigate your business to a fuller, faster recovery.**

## Meet your ADJUSTING TEAM

Experience, professionalism, and a deep-seated commitment to customer service are the hallmarks of our industry leadership.

The insurance company has their own adjuster and a team of experts to go over your claim with a fine-toothed comb. When you choose to work with us, you bring the power of our expertise to the table, essentially leveling the playing field and giving you the chance to achieve the best possible financial recovery.

Adjusters International boasts more senior and certified public adjusting professionals than any other organization of its kind.

Our experts include building estimators, contents appraisers, specialty appraisers, engineers, and certified public accountants — all working as part of your team to prove your claim to the insurance company.

Working on your side  
TO PROVE YOUR  
CLAIM TO  
the insurance company.

## We've got THE EXPERIENCE you need

Our team has experience with everything from fires and water damage to all major disasters to have occurred in the past 25 years, including every hurricane to have hit the U.S. and Caribbean, the Midwest floods, California earthquakes, and terrorist acts, as well as tornadoes, hail damage and ice storms.

We have handled thousands of insurance claims resulting from disasters of all sizes and types. Our list of credentials includes the Port Authority of New York & New Jersey (owners of the World Trade Center)

and their 9-11 recovery; it includes serving on the Governor's Task Force that assessed damages following the Oklahoma City bombing; as well as working as advocates for numerous counties, cities, school districts, hospitals and port authorities.

We have over 40 offices throughout North America, each drawing on the resources of our insurance and catastrophe professionals throughout the country, so you can rest assured that when you call Adjusters International, you're calling in the best of the best.

## What we do FOR YOU

Our consultants navigate your insurance claim and build the strongest possible foundation for your financial recovery. No one knows your business better than you do, and following a major loss, it's perhaps the most critical time to apply that knowledge toward a successful recovery. A crucial foundation, however, is the financial component. That's where we come in:

- Evaluating your insurance policy to **establish the best possible strategy** for presenting your claim to the carrier;
- **Valuing, documenting and substantiating** every detail;
- **Negotiating on your behalf** with your insurance company;
- **Keeping you informed** every step of the way; and
- Ultimately **settling the claim for the maximum amount** and with infinitely less hassle for you.

## How we are COMPENSATED

Property insurance claims are complicated, and the learning curve is steep. Our service fee, usually based on a percentage of your claim, is minimal in relation to your claim settlement and is offset by the better settlement you are likely to receive with our involvement — not to mention the time, hassle, and anxiety our experts can save you.

In addition, our expertise is focused on improving your financial recovery. If we don't think our involvement will make a difference, we'll tell you.

## What the Press Has to Say About Public Adjusters

### Consumer Reports Homeowner Insurance Buying Guide

*"If you reach an impasse, consider a public adjuster, who will negotiate for you for a fee, usually 10 percent of the payout. A Florida study of 76,000 claims suggests that it's money well spent: Policyholders who used a public adjuster settled with their insurance company for 19 to 747 percent more on hurricane-related losses than those who didn't. ..."*

### The Wall Street Journal Online Why Insurance Mediators Help When Disaster Strikes

*"... Most homeowners, it turns out, have only a vague idea of what their homeowners insurance actually covers. Once a claim is filed, the insurance company will send over an independent adjuster to evaluate the claim. But these independent adjusters aren't so independent. Their job is to represent the insurance company's interests first, and yours second. After all, the insurance company is paying the independent adjuster.*

*... So when disaster strikes, it may very well be worth hiring a professional public adjuster as your advocate in an insurance claim. These adjusters specialize in combing over your damaged property and your homeowners policy, and they make sure the insurer doesn't snake away from a valid claim. Public adjusters many times are veteran insurance company claims adjusters who know how insurance companies operate and have expertise in negotiating property claims to make sure you get the most out of your policy.*

*"... If you have any sort of significant homeowner property claim, we recommend that you not file a claim without having a public adjuster to represent your interests," says Paul Cohen [founder of New York-based consumer advocacy Web site *Fight Bad-Faith Insurance Companies*]."*

# Public Adjusters

## South Florida Sun-Sentinel Public Insurance Adjusters: An Alternative to Helping Policyholders Win Claims

Julie Patel

*"Many homeowners don't fully understand their property insurance policies and are at a disadvantage when negotiating with insurers about repairs needed after a fire, theft, hurricane or other disaster. ..."*

*This week, Insurance Consumer Advocate Sean Shaw plans to make legislative recommendations on how to speed up claims — based on several forums he held recently to address complaints from consumers about the process.*

*Shaw wants consumers to hire reputable, licensed public adjusters when help is needed with complicated claims. Consumers should be clear on the fee and what it includes, he said.*

*'Most of the time, I'd argue [insurance companies] do the right thing, but for those times that they don't, you'd sure like to have a public adjuster there fighting for you,' he said. ...'*

## Insure.com How to Hire a Public Insurance Adjuster After a Disaster

*"Public claims adjusters can minimize the hassle of collecting documents and evidence and they negotiate with your insurance company. An adjuster will file the necessary paperwork with your insurer, arrange for inspections of your damaged property and haggle with your insurance company if it refuses to pay your full claim.*

*Public adjusters also help their clients communicate effectively with their home insurance companies in order to expedite claim payments. ..."*

## Bankrate.com Do You Need Your Own Claims Adjuster?

*"... Public adjusters assume all of the duties necessary to get your claim processed, including making an inventory of the loss and presenting your case to the insurance company. A good public adjuster has experience in the industry and will understand your contract and the company's responsibilities right down to the fine print. In exchange, a public adjuster receives a percentage of your claim.*

*'For the most part, people like using (a public) adjuster because they like the idea that someone is working on their behalf versus someone working on behalf of the company,' says P.J. Crowley, Vice President of the Insurance Information Institute."*

## Disaster Recovery

### Journal

#### When a Property Loss Occurs, Who is in Control?

Susan Plizga

*“... Public adjusters are experts, employed by you, who are trained to understand how insurance companies deal with the complex policy requirements. One way to assure that you receive all that is rightfully and legally yours if a disaster occurs, is to hire a public insurance adjuster. ...”*

*“A public adjuster is an individual with expertise in the area of insurance adjusting. Many people see the word ‘public’ and automatically associate public adjusters with the government. The title ‘public adjuster’ is used to distinguish them from the insurance adjusters and because they represent you, the public.”*

## Yahoo! Finance

### Six Ways to Get the Most from Insurance Claims

Joe Mont – TheStreet.com

*“The Florida State Legislature’s Office of Program Policy Analysis and Government Accountability issued a report last year that looked at the relationship between public adjusters, policyholders and the state-run Citizens Property Insurance program — an insurer established for those otherwise unable to afford or get coverage — in the wake of the 2005 hurricane season.*

*That audit found that policyholders who retained public adjusters for their claims got 747% higher compensation than those working solely with their insurance company. For non-hurricane claims, policyholders got 574% higher compensation. ...”*

## CBS MoneyWatch

### When to Hire a Pro to Settle an Insurance Claim

Ray Martin - CBSNews.com

*“... When there is a dispute over a claim, the burden of proof is on the insured. A public adjuster will document the loss, gather supporting replacement cost information and negotiate with the insurance company to maximize your settlement. ...”*

# Public Adjusters

## Bankrate.com

### Insurance: Hiring a Public Adjuster

*Polyana da Costa*

*"A public adjuster works for the homeowner, not for the insurance company. The homeowner pays a public adjuster, usually as a portion of the claim. Insurance settlements usually are bigger, but don't expect a miracle."*

*"Filing an insurance claim after a disaster is a stressful process. To avoid having to deal with the hassle, and with hopes of getting more money from the insurance company, many homeowners seek the help of a public adjuster."*

*"A public adjuster is an insurance claims specialist who interprets the homeowner's policy, assesses the damage and how much it will cost to repair, and negotiates with the insurance company on behalf of the homeowner until the claim is settled. ..."*

## Insure.com

### Secrets of Public Insurance Adjusters: What They Know About Insurance Companies That You Don't

*"Hiring a public claims adjuster can put you on an even playing field with your insurance company. Your insurer may assign three different adjusters to work on your claim: one for 'additional living expenses,' one for your personal property and one for the building portion of your claim. A public adjuster will be able to explain the process and work on your behalf handling the countless meetings, e-mails, phone calls and paper documents that flow for a large claim. ..."*

## Bottom Line/ Personal

*"Getting a fair settlement from your home insurer? Consult a public insurance adjuster to find out. Insurers — smarting from stock market losses — are pressuring their claims adjusters to keep damage claim payouts at or below the industry average. A public insurance adjuster safeguards the interests of the consumer. ..."*

RE: 12 Bluestone Ridge Clifton Park NY 12065

Dear Dan Tompkins,

We would like to thank you for all that you did for our family during our time of need recently. As you remember, a pipe broke in our finished basement and over fourteen thousand gallons of water covered our floors, furniture and fixtures. We were so impressed when you agreed to come over that very evening to assess the damage for us and to give us good advice as to how to mitigate the damages and save ourselves from further loss. We were particularly pleased that you had all the necessary forms with you that night so that we could get started with our claim immediately. Your expertise was instrumental in helping us understand our policy. If it wasn't for you we really would not have known about the many different ways in which our insurance coverage worked. Our State Farm agent was cooperative but you were way more knowledgeable and we are confident that we received the most for our claim thanks to your keen eye and attention to minute detail.

We are happy to say that we received our money from our insurance company in record time. We are quickly putting our basement back together and look forward to enjoying it again soon. We cannot say enough about the incredible service we received from you since we thought the days of this kind of service were all but gone. Clearly you have made a commitment to your clientele to provide expert service that is second to none. We couldn't be happier with the end result.

Very sincerely,

Mark Favaloro & Millie Wood

**Dear Dan,**

Just a quick note to thank you and your firm, for your efforts in successfully settling our home owners insurance claim. A combination of a neighbor's recommendation and my initial bad experience dealing with the insurance company's telephone adjuster, convinced me we needed your services.

Must admit, I was initially skeptical of the value of your services. Guess we all assume the insurance company will just pay for all the repairs and losses, minus any deductible. When you experience structure and contents losses, it isn't easy to determine the value of your losses without a public adjuster on your side. Unfortunately, the average home owner, is not in a fair bargaining position with an insurance company without the help of a firm like yours. Your detailed estimates were instrumental in achieving a fair settlement from the insurance company. Also by negotiating a fair value with the insurance company, you took a lot of headaches away and got the best settlement.

Our home has been successfully repaired and improved upon. Our contents have been replaced as needed and all for the settlement we received from the insurance company minus your fee. You have removed my skepticism and proved that your services are necessary and worthwhile! I am pleased to provide my recommendation for the use of your company to anyone experiencing a similar loss.

Thank you for your help,

James M Robert

Dear Sir,

I am writing regarding my experience with your company and it's representatives Doug Garland & Steve Vanuga. Last spring I had a fire in my garage which started in the kitchenette causing substancial structural and personal property loss.

I knew that dealing with the insurance company on a loss like this could be complicated and agravating. Fifteen years ago a tree fell and completely destroyed a garage I had on another property. That experience left me feeling helpless and at the mercy of the Insurance company's estimator. So when our fire happened I quickly went out to find a reputable company that would help me deal with the insurance aspect of our loss. I contacted your company and am so glad that I did, they negotiated with the insurance company and got them to cover all the needed repairs, they also did an amazingly detailed invintory and estimate of items damaged / lost in the fire. (Far better than I would have ever been able to do) The entire experience of working with your team was a pleasure, they made my life easier and I would recommend your company with no reservations.

Sincerely  
David R. Guadagna

Re: My claim(s) experience(s) with BLC

Dear Sirs,

About 15 years ago a rental home was severely damaged in a fire. At the time of the incident, I wasn't in town and was quite surprised to hear "We'd like to talk to you about the fire" (What fire I had no idea about until I went through the newspapers to find the house on the front page!). The insurance company offered \$23,000 to bulldoze the property and BLC (with whom I'd never done business) was able to secure \$42,000 from them; they kept their 10%, we sold the home for \$10,000 "as is" and the property is now a private residence.

This year I had a leak in a pipe above a ceiling caused by a nail in a floor on the second floor etching away (presumptively for many years) at the hot water pipe until it finally burst destroying not only the ceiling and walls in a small hallway (where the water was coming out), but the entire bathroom ceiling and walls above which the pipe actually was leaking.

My first call was to the insurance company. My very next call was to BLC (based upon my house fire experience 15 years ago noted in the first paragraph). Exceptional service and persistence (not to mention the stress relief of my not having to deal with the insurance company) resulted in a brand new bathroom other than the fixtures themselves: new ceiling, walls, flooring, etc. There is absolutely NO WAY I'd have this result had I gone solo and fought with the insurance company.

I HIGHLY recommend (and do verbally to anyone I hear of who's experiencing a loss) BLC and, in particular, Peter DeCarlo, who was simply a prince throughout the process. He even left his OWN flooded home on a Saturday evening to meet here with the insurance adjuster. Just exceptional and the quintessential professional.

Everyone at A.I./B.L.C. is wonderful including Dick Smith, Peter Surace, Ann Marie Rowlands (a friend) and Peter DeCarlo with whom I had the most contact.

I hope to never have to call you again, but, if I do, I'll rest easy knowing I'm well served and taken care of.

Sincerely,

Attention: Mr. Richard R. Smith

Dear Mr. Smith:

I am writing to say that I was very pleased with the service provided by your company. I had never been through this process before and at first it appeared to be very daunting. After meeting with your company's representatives, especially Doug Garland, I felt that the work needed to catalog all of the items lost or damaged in the fire would be handled very expeditiously and professionally - and indeed it was.

Additionally, Mr. Garland handled all of the negotiations with the insurance company, keeping me well informed every step of the way. I felt that my interests were being very well represented. In the end I believe Mr. Garland was able to negotiate a better resolution than I would have been able to on my own.

Although I hope never to be in a position again to need your services, if I am, your company will be the first on my list to call.

Very truly yours,

Dear Mr. Surace,

On behalf of my sister, Rosemari Bennett and myself, I am writing this letter to express our gratitude for the opportunity to have worked with two of your employees; Darin Checchia and Mark Parkinson regarding the handling of our insurance claim at our rental property at 6 Root Street, in New Hartford, NY. The insurance claim was for "Building Damage Due To Water."

Darin explained the Basloe, Levin and Cuccaro would be the advocate between the insurance company and the vendors needed to complete the process for restoring the building. Mark would manage the process of working with the vendors and supervising their work.

The homeowner does not have the expertise to complete a project from the initial devastation of the loss to the completion of the complicated tasks for restoration of ones property.

Please give our thank you to both Darin and Mark for a job well done and our appreciation.

Darin and Mark represent Basloe, Levin & Cuccaro as a company one feels comfortable giving a personal and professional recommendation as they are part of your companies success story.

Sincerely,

A sincere thank you to Richard Smith for the great job he did for us with our poach damage. Since my wife and I are in our eighties, Richard took the burden of stress away and made the situation much easier. We can't thank you enough for the professional help that you provided in negotiating with our insurance company on our behalf. We are confident that we ended up with a considerable larger settlement thanks to your knowledge and efforts. We are very pleased with the outcome and would highly recommend you to others.

Thank you again for all your work, advice, and communication throughout this process.

I want to deeply express my thanks for all your help with our garage barn fire Nov 2013. Hiring your firm was one of the best choices I have ever made. At a time like that you really need knowledgeable people to guide you through the process. Everyone I worked with at your firm was always professional and always had answers for me right away. Mr. Dragonetti was the best, always patient with all my calls & questions, which I had a lot of. My settlement was more than I expected. Without you & all your help I would have received a lot less. Again thank you all so much!
